

The PrimeCare® 901

Expands into a 42" 500lb capacity bariatric bed! The Prime Bed PCB901 is a bed designed to handle your non-traditional bariatric patient; a person who needs a little more elbow room for comfort and dignity. An additional benefit is a more workable surface for repositioning and care by staff and faculty.

Boasting a 500lb weight capacity and the ability to EXPAND from 35" to 42" wide and 76" to 84" in length, the PCB901 can meet and exceed the rigorous challenges of resident care in today's industry. Primus Medical strives to develop and produce a complete and tactical product focusing on reducing cost and maintaining a "Best in Class" standing. This can be surmised in one word; synonymous with Primus Medical: Quality.

Mission Accomplished.
